

Intensive support for voluntary & community organisations and social enterprises in Bristol

New offer – Social Enterprise Works and Voscur are together offering an opportunity for some intensive organisational and business development support.

Whether you just want to review where you are going, or are experiencing a time of change this will help you to reflect and prioritise.

Social Enterprise Works can offer two hours free support through their Business Link contract and Voscur is matching and extending this offer through their recession mitigation funding with a further three hours support delivered by an accredited and experienced social enterprise adviser from Social Enterprise Works.

What can you expect?

A healthcheck to get a full picture of your organisation
An analysis of the areas where you need support (and congratulation for those areas you are doing well)
An action plan to help you move forward
Supported by useful tools, masses of experience and knowledge and by advisers who understand your issues.

Where you have a particular issue or area that you want to explore, we can concentrate on that after the initial healthcheck.

To find out more about the offer of 5 hours free support, email support@Voscur.org. This offer is initially available for 20 organisations in Bristol, between now and the end of March 2010. Get in touch soon to secure your support.

If you feel you only want two hours support, contact Social Enterprise Works to book an appointment with an adviser. info@socialenterpriseworks.org or call on 0117 9070080.
