

What do we want the LSP to do?

- ❖ Do we want priorities to work to? Broad and fixed
- ❖ How will BP deliver on the four aims?
- ❖ What do the four aims actually mean to people in the City and on the ground?
- ❖ What impact –do people know that BP is there?
- ❖ People do not need to know the structure as long as the aims are achieved
- ❖ Need clear decisions
- ❖ Not specific about what services partners deliver
- ❖ What are the aims / achievements of the delivery groups
- ❖ Nothing under community strategy to say how the aims are achieved – differences of opinions on how
- ❖ Debate / discussion – different ideas of achievement – BP is an arena for debate and discussion.
- ❖ Limited number of priorities decided upon – clear, real focus of agencies – manageable tasks.
- ❖ Groups unresourced – no real influence on decisions
- ❖ Things we can do to make Bristol different
- ❖ Bristol Partnership to be strategic body
- ❖ Needs options to go forward with
- ❖ Collective wisdom works on solutions
- ❖ BP has strategic role in delivering LAA targets do not say how
- ❖ Accountability – is BP place for senior manager to come if LAA target fails works on solutions
- ❖ Big change in culture!
- ❖ Commissioning role of BP – need to know more about it
- ❖ Is Bristol City Council training to do better commissioning?
- ❖ Systems and processing involving partners – need to be better
- ❖ People working to own agendas rather than wider agenda – needs to be a massive shift
- ❖ Is aim of BP to make this culture change to way of working in Bristol?
- ❖ Strategic
- ❖ Innovative
- ❖ Accountable
- ❖ Resourced
- ❖ Agent of change
- ❖ Impact of loss of arena – strategic partnership needs to be in touch

- ❖ Is it too late to retrieve arena? – How will BP make sure that examples like this do not happen again?
- ❖ How well has BP done in changing hearts and minds?
- ❖ Is it about:
- ❖ Improving public services / campaigning – how do we do this?
- ❖ Need to be clearer on this – idea of focus / priority
- ❖ So much talk, so little action!
- ❖ What is vision of Bristol in 5 or 10 years time? What are we working towards? – Time frame needed
- ❖ What do we want to achieve and when by?
- ❖ The risk is that BP will try and do everything! There needs to be clarity on what is really important
- ❖ Take 1 of 70 targets
- ❖ Platform for stronger voice for Bristol residents – vehicle for more democracy
