

Avon Counselling & Psychotherapy Service

is looking for a

Fundraiser

ACPS is at an exciting moment in its development. We are looking for an experienced and resourceful fundraiser as we look to expand our low-fee therapy service and to extend our existing signposting and referral service.

Avon Counselling and Psychotherapy Service is a small, well-established charity offering professional psychotherapy and counselling for over 30 years in Bristol, Bath and the South West. ACPS believes in making therapy widely accessible and the fundraising role is key to achieving this.

The post would initially be a fixed-term six-month contract one day per week, working on a self-employed basis. Competitive salary dependent on relevant experience.

This is an opportunity to work with a supportive and resilient team of experienced therapists who run the service co-operatively.

Closing date for applications: Wednesday 31st July 2024

For more information and details about applying email or call.
