Responding to the ever changing world of Cyber Crime

featuring

Nigel Leary

Head of Operations | National Cyber Crime Unit
National Crime Agency

The global threat of cyber crime continues to rise in scale, complexity and impact. With technology underpinning essential services, businesses and private individuals alike we have never been more vulnerable. Cyber crime costs the UK billions of pounds, causes untold damage to society, and threatens national security.

In this free online seminar Nigel will consider the evolution of cyber crime and examine how inter-connected technological innovation is helping with the response to this ever changing threat.

Nigel will also discuss strategies to minimise your exposure from the risk of cyber crime.

Programme

16:00

Introduction

16.05 to 16.40
