# About Caring in Bristol

## Who we are

Caring in Bristol's vision is creating a city empowered to solve homelessness. We work in imaginative and creative ways with people experiencing or a risk of homelessness, with the public and with community partners to bring about lasting change in Bristol and beyond.

We are small yet highly ambitious and have significantly expanded our reach over the last three years to fund the work we are passionate about in our city. COVID-19 has transformed the strategies needed to support people at risk of or experiencing homelessness in Bristol, pushing many into precarious housing situations and creating large numbers of newly housed people that could fall back into homelessness.

## Our values

<b>Collaboration</b> We learn, share and work with everyone in our community to create services that best meet need. Our beneficiaries inform the design, delivery, and evaluation of our work. We collect and apply evidence to build partnerships and embed our impact.	<b>People first</b> We value human relations, and the strengths people have and are committed to positive change and development in everyone. We will take positive risks with people. We hold that the wellbeing of our staff and volunteers is integral to the positive impact we can make with our beneficiaries. We are inclusive and celebrate diversity.	<b>Focus on the end goal</b> We work with our beneficiaries and volunteers to achieve their ambitions. We are here to make ourselves no longer needed and want Bristol to be the first major city to end homelessness.
