

Funding Application Review Service – Eligibility Criteria

Funding applications can be accepted for review if the organisation is able to meet the following criteria:

1. The organisation is a not-for-profit organisation.
2. They are able to adhere to the timescales for the submission of documents outlined within the Terms and Conditions. Voscur needs to receive all the information requested at least 20 working days before the submission deadline for the application.
3. There is no conflict of interest. For example, a conflict of interest would arise if Voscur was to review an application that was in direct competition with an application Voscur was making for funding.
