

Finding free legal advice

There are several situations when you might find legal advice useful. If you aren't able to pay for it you may be able to find support via the City Funds Pro-Bono support service (contact John Stienlet john.stienlet@quartetcf.org.uk) However, many everyday issues are covered in LawWorks resources.

LawWorks develops resources which provide general information for not-for-profit organisations on specific areas of law, to enable them to spot and avoid potential legal problems.

Free Talks are short online videos about common legal issues faced by small not-for-profit organisations. The videos are all free to watch and aim to help you when making important decisions.

- Topics covered include:
 - Setting up a CIO
- Basics of property law
- An introduction to the Charity Tribunal
- Managing Redundancies
- Basics of Contract
- An Employer's Guide to the Employment Tribunal
- Data Protection and Websites
- Employing Someone New
- Amending Governing Documents and Constitutions
- Charity Structure
